

K-Love has been an inspiration not only to me, but my community as well. When I am down the music that is played always lifts me and helps me to keep going on. This radio station as I have stated before effects me tremendously. I listen to K-love at work, at home, in the car and where ever there is a radio. If K-love is forced off the FM translor services hundreds of thousands of lives will be effected by this change. Keep K-love on the FM translator.

Thank- you,
May
